JS

EXPERIENCE

Frontend-Focused AI Developer

Outlier

📅 05/2025 - Present   📍 Remote

- Evaluated React Native and TypeScript code for correctness, ensuring adherence to accessibility standards (WCAG 2.1) and responsive performance.
- Optimized prompt workflows to improve AI-generated frontend code quality, reducing hallucinations and debugging time for more reliable outputs.
- Coordinated with product and engineering teams to maintain consistent design systems and responsive functionality across mobile and web platforms, contributing to a 15% reduction in development time.
- Collaborated with team, reviewing.
- Collaborated with Outlier AI team members to ensure consistency and accuracy of model training data.
- Supported contributors by reviewing and validating their work, offering clear feedback when tasks challenged the model.
- Developed quality-control methods to evaluate correctness, completeness, and alignment of AI outputs with task requirements.
- Tested model responses against guidelines, identifying errors and edge cases to improve reliability.
- Transformed raw contributor submissions into structured, high-quality data ready for model fine-tuning.
- Designed review workflows to streamline contributor feedback and reduce turnaround time.
- Remodeled incomplete or misaligned tasks to meet project specifications before ingestion.
- Modeled best practices in prompt writing and evaluation to guide contributors.
- Operated internal AI review tools and tracking systems to log performance and resolution outcomes.
- Sold project impact by documenting and communicating how review insights improved model behavior and reduced errors.

Full Stack Engineer Intern

Cloud Cores

📅 01/2025 - 05/2025   📍 Remote

- Increased app user engagement by {25%} by developing cross-platform components with Firebase for responsive, accessible design.
- Improved cross-platform security and data integrity, increasing user retention by {15%}, by engineering reliable login and sync flows.
- Contributed to Agile sprints and design reviews to ensure UI/UX alignment and compliance with established accessibility practices.

EDUCATION

A.S., Computer Science

Luzerne County Community College

📅 01/2025 - 2027   📍 Hazleton, United States

SUMMARY

Front-End Developer with expertise in React, TypeScript, and responsive design. Experienced in crafting accessible web applications, integrating RESTful APIs, and optimizing workflows using Git-based version control and CI/CD practices. Demonstrated success enhancing design consistency and efficiency in Agile teams. Eager to leverage these skills to create user-centric experiences in fast-paced, mission-driven environments.
